

WHY CULL!

I'll tell you what you'd better do,
to get your hens to lay for you,
A lot of eggs that'll fill the pail,
So you will have fresh eggs for sale.

You'd better cull those boarders out,
All those old hens that have the egg out,
Week out those runts with those long beaks,
And help stop up your poultry leaks

Some folks have hens that lay each year,
Two hundred two-ounce eggs my dear,
Just atch your stock from such as they,
and raise a working bunch that pay.

With feed priced low and egg priced high,
A few star boarders might get by,
When feed is high and eggs are low,
Then the total loss just costs you dough.
